

PAPER CRAFT BIRD

WHIP UP A FEW CUTE LITTLE BIRDS TO HANG FROM YOUR TREE OR GARLAND

*** Template * Cardboard * Newspaper or pages from an old book * Wrapping paper * Glue * Ribbon**

- 1 Download and print the template. Use it to cut out one body, one tail and two wings from the cardboard.
- 2 Stick the pages from an old book onto the body and one wing and cut out around the outline.
- 3 Cut out a tail from wrapping paper and stick it to the cardboard tail. Fold the tail in a fan. Cut out a wing from wrapping paper and stick it to the cardboard wing.
- 4 Stick the wings on each side of the body so you can see the wrapping paper wing from the front. Now stick the tail on the back of the bird so the wrapping paper is on the outside. Use a peg to hold the tail in place until it's dry.
- 5 Stick a loop of ribbon onto the back and hang it up.
