

## FRIGHT LIGHT

OUR SUPER-SPOOKY LANTERNS ARE SIMPLY TO DYE FOR

\* Rubber gloves \* Orange and purple dyes \* Measuring jug \* 6 litres warm water \* Washing-up bowl \* White paper lanterns \* String \* Washing line \* Pegs \* Face and bat templates \* White paper \* Black card \* Pencil \* Scissors \* PVA glue

**1** Wearing rubber gloves, make up the orange dye in a jug following the pack instructions. Pour into the water in the washing-up bowl and mix well. Submerge a section of a paper lantern into the dye and leave for 5 minutes, before turning and soaking the next section. Move the lantern around, until the entire lantern has been completely dyed.

**2** Remove the lantern and hang with some string on a washing line until it's completely dry.

Mix up the purple dye and repeat the process.

**3** Print the black skull and the pumpkin face templates onto paper, cut out. Glue the skull to a white lantern and the pumpkin face to the orange lantern.

**4** Print the bat templates and cut out. Draw the bats onto black card and cut out. Bend the wings up slightly and glue to the purple lantern.
